

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Candriam Money Market Euro, a sub-fund of the SICAV Candriam Money Market

Class I - Capitalisation shares: LU0206982331

Competent authority: CSSF (Commission de Surveillance du Secteur Financier)

Management company: Candriam

OBJECTIVES AND INVESTMENT POLICY

Principal assets traded:

Money market instruments and/or bonds with a maximum residual maturity of less than 397 days or with an interest rate which may be revised at least annually, denominated in EUR or in currencies of member countries of the Organisation for Economic Co-operation and Development (OECD) and issued by all types of issuers rated at least A2/P2 (or equivalent) by one of the rating agencies (i.e. reputedly good quality issuers).

Deposits.

Investment strategy:

The fund seeks to achieve capital growth, associated with a low risk level, by investing in the principal assets traded.

Within the limits of the fund's objective and investment policy, the management team makes discretionary investment choices in the portfolio based on its analyses of the characteristics and growth prospects of the assets traded. The duration (Weighted Average Maturity - WAM), i.e. the sensitivity of funds to changes in interest rates, will not exceed 6 months and the weighted average life of funds (Weighted Average Life - WAL) will not exceed 12 months.

The Fund promotes, among other characteristics, environmental and/or social characteristics without however having a sustainable investment objective. Environmental, social and

governance (ESG) criteria contribute to the manager's decision-making, without however being a decisive factor in this decision-making. For more information, please see the management company's website and/or the prospectus.

The fund may also use derivative products for hedging purposes (taking protection against unfavourable future financial events).

Benchmark: €STR

The fund is actively managed and the investment process implies referring to a benchmark index.

Definition of the index:

The €STR is the short term rate in euros that reflects unsecured overnight borrowing costs in euros for banks in the euro zone.

Use of the index:

- for the purpose of performance comparisons.

Redemption of shares: On request, every day, in Luxembourg.

Allocation of income: Reinvestment.

Recommendation: This fund may not be suitable for investors who plan to withdraw their capital within 6 months.

Category: Standard variable net asset value money market fund.

RISK AND REWARD PROFILE

- The risk level shown reflects the fund's historical volatility, completed where applicable by that of its reference framework. The volatility indicates the extent to which the value of the fund may fluctuate upwards or downwards.

- The historical data may not be a reliable indication for the future.

- The indicated category may vary over time.

- The lowest category does not mean "risk-free".

- There is no guarantee or mechanism to protect the capital.

The investor needs to be aware of the following significant risks which are not necessarily adequately taken into account by the indicator:

- **Credit risk:** the fund is exposed to the risk of default of an issuer in terms of honouring the payment of coupons and/or the repayment of the amount borrowed.

- **Counterparty risk:** The fund may use OTC derivative products and these may represent a counterparty risk, i.e. the inability of the counterparty to honour its commitments to the fund. This counterparty risk could be fully or partially hedged by the receipt of guarantees.

- **Sustainability risk:** refers to any event or situation in the environmental, social or governance domain that could affect the performance and/or the reputation of the issuers in the portfolio. The sustainability risk may be specific to the issuer, depending on its activities and practices, but it may also be due to external factors.
