

OVERVIEW | CANDRIAM

Who we are

Candriam is a leading global asset manager with a strong European presence based on 20 years of experience. With investment centers in Brussels, Paris, Luxembourg and London, our conviction-driven investment solutions cover five key areas:

**FIXED INCOME | EQUITY | ABSOLUTE PERFORMANCE STRATEGIES
SUSTAINABLE INVESTMENTS | ADVANCED ASSET ALLOCATION**

Candriam stands for “**Conviction And Responsibility in Asset Management**”: conviction-based investment decisions and a sense of responsibility to our clients run through everything we do.

Long-standing expertise in equity, fixed income and asset allocation

In addition to providing institutions and wholesale investors with access to traditional equity, fixed income and asset allocation strategies, we have also developed an extensive range of specialist products. These include emerging debt and equity, quantitative equities, and a number of thematic strategies focusing on areas of particular investment interest.

25 years of leadership in Sustainable Investing

Our Sustainable Investing research team is one of the largest in continental Europe, enabling us to provide a broad range of ESG strategies across geographic regions and asset classes (equity, fixed income and asset allocation).

Leading the way in ESG for 25 years

In addition to standard strategies, at Candriam, we offer a specialist ESG product range based on the joint work of our team of dedicated ESG analysts and each of our investment teams. Our sustainable funds cover equities, fixed income and asset allocation strategies and the European, North American, Asia-Pacific and emerging market regions.

Our approach towards sustainable investing involves selecting firms with leading Environmental, Social and Governance (ESG) practices in their field, direct dialogue with companies to encourage them to improve their behavior, and a proxy voting process that we have been refining since 2003.

Overall, 67% of our total assets under management are invested in ESG strategies (as of December 2021).

A major provider of absolute performance & alternative investment strategies in Europe

With investors increasingly looking towards alternative investments for the returns and diversification that they need, at Candriam, we have responded by steadily broadening our expertise in alternatives over the past 20 years.

As of December 2021, we run 14 distinct alternative strategies, most of which offer daily liquidity, with a range of risk-return profiles to suit the varying needs of our clients. All place a strong emphasis on minimizing drawdowns, with our independent risk management department ensuring they comply with strict regulatory, contractual and internal guidelines.

At the heart of our alternative capabilities is a pool of about 45 experienced fund managers and analysts. Over the years our alternative strategies have built up strong risk-adjusted performance track records, with above-average sharpe ratios. The expert input of a large number of investment professionals and support teams across our company has also been instrumental in our success in this area.

A strong foothold in Europe

Capitalising upon its strong European roots, Candriam has developed into one of the leading names in the European asset management industry over the past 20 years, providing high-quality investment solutions to investors across the continent.

In addition to our investment teams located in Brussels, Paris, Luxembourg and London, we have teams on the ground in nine European countries, close to the clients that we serve. Our experienced client relationship managers have in-depth understanding of our investors' needs across the markets in which we operate, enabling them to provide highly customised advice and to propose the right solution from the extensive range of investments that we run.

As we are also the European distributor of a range of products of New York Life Investments Group's investment boutiques, we can offer our clients a wide array of investment solutions.

- (1) Assets under management (AUM) includes assets which do not fall within the U.S. Securities and Exchange Commission's definition of 'regulatory AUM' in Form ADV, Part 1A.
- (2) About PRI - The United Nations-backed Principles for Responsible Investment (PRI) initiative is an international network of investors working together to put the six Principles for Responsible Investment into practice. Its goal is to understand the implications of sustainability for investors and support signatories to incorporate these issues into their investment decision making and ownership practices. In implementing the Principles, signatories contribute to the development of a more sustainable global financial system. The Initiative has quickly become the leading global network for investors to learn about responsible investment and collaborate with their peers, companies and policymakers to generate sustainable, long-term investment returns for their clients and beneficiaries.
