Competent Authority:	The Commission de Surveillance du Secteur Financier (CSSF) is in charge of the control of Candriam with regard to this key information document. . This product is authorised in Luxembourg. Candriam is approved in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

This key information document is valid as at 2026-01-26.

WHAT IS THIS PRODUCT?

Type: This product is a share class (S2) of a sub-fund (Sedes Sapientiae) of an investment company with variable capital (SICAV) under Luxembourg law (Candriam Fund), Undertakings for Collective Investment in Transferable Securities (UCITS).

Term: Open-ended.

Objectives:

Principal assets traded:

Bonds, shares, cash and money market instruments of all types of issuers in the global markets, primarily through investment funds and/or directly and/or using derivatives.

Investment strategy:

The fund seeks to achieve capital growth through diversified investment, balancing the equities funds and bond funds and to outperform the benchmark. Within the limits of the fund's investment objective and policy, the management team makes discretionary investment choices in the portfolio based on analyses of the characteristics and growth prospects of the assets traded.

The quota of assets invested in shares may be either the majority, or the minority and it could be highly reduced, according to the asset manager's expectations of the trend of the financial markets and in order to reduce the risk for the investor.

The Fund promotes, among other characteristics, environmental and/or social characteristics without having a sustainable investment objective. Environmental, social and governance (ESG) criteria contribute to the manager's decision-making, without however being a determining factor in this decision-making. For further information, please refer to the website of the Management Company and/or the prospectus.

The fund may use derivative products both for investment and hedging purposes (hedging against unfavourable future financial events).

Benchmark: 18% MSCI Europe (Net Return) + 8% S&P500 (Net Return) + 14% MSCI World (Net Return) + 5% MSCI Emerging Markets (Net Return) + 23% J.P. Morgan GBI Europe (Total Return) + 18% J.P. Morgan GBI Global (Total Return) + 6% iBoxx EUR Corporates + 4% J.P. Morgan EMBI Global Diversified + 4% ICE BofA BB-B Global High Yield Non-Financial Constrained Index Hedged EUR (Total Return) .

The fund is actively managed and the investment approach implies a reference to a benchmark.

Benchmark definition:

MSCI Europe: measures the performance of the large and mid-capitalization equity segment across developed markets in Europe.

S&P 500: measures the performance of the large capitalization equity segment of the U.S. market and is composed of 500 companies.

MSCI World: measures the performance of the large and mid-capitalization equity segment across developed markets countries.

MSCI Emerging Markets: measures the performance of the large and mid-capitalization equity segment across emerging markets countries.

J.P. Morgan GBI Europe: measures the performance of the most liquid European developed markets local treasury bonds.

J.P. Morgan GBI Global: measures the performance of the most liquid global developed markets local treasury bonds.

iBoxx EUR Corporates: measures the performance of investment-grade EUR-denominated corporate bonds.

J.P. Morgan EMBI Global Diversified: measures the performance of USD-denominated emerging markets sovereign and quasi-sovereign bonds using a diversification scheme that allows for more even weight distribution among the countries in the index.

ICE BofA BB-B Global High Yield Non-Financial Constrained Index Hedged EUR (Total Return): measures the performance of USD, CAD, GBP and EUR-denominated non-financial corporate bonds below investment grade rated BB1 through B3 issued in the major domestic or eurobond markets and with issuer exposure capped at 2%.

Use of the benchmark:

- as investment universe. In general, the majority of the fund's financial instruments are part of the benchmark. This said, investments outside this benchmark are admitted;

- in the determination of risk levels/parameters,

- for performance comparison.

Deviation level of the portfolio composition from the benchmark:

The fund being managed actively, its objective is not to invest in all constituents of the benchmark, nor to invest to the same extent in the constituents of the benchmark. Under normal market conditions, the tracking error of the fund will be important this is over 2.5%.

This measure is an estimation of the deviation of the fund's performance compared to the performance of the benchmark. The more the tracking error is important, the more deviations compared to the benchmark are important. The effective tracking error depends notably on the market conditions (volatility and correlations between financial instruments) and can deviate from the expected tracking error.

Redemption of shares: On request, every day, in Luxembourg.

Allocation of income: Reinvestment.

Intended retail investor:

This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience who are looking for Capital Growth. This product can be used as a core holding or a component of a diversified portfolio for investments with an investment horizon of 4 years. Investors should understand the product risks and only invest if they can bear potentially substantial losses.

General information:

Depository bank: CACEIS Bank, Luxembourg Branch.

Other information:

This document provides a description of a share class of a sub-fund of Candriam Fund. The prospectus and periodical reports are established for all the sub-funds. There are other share classes and these are listed in the prospectus.

Investors may apply for the conversion of their shares into shares of another class of the same sub-fund or into shares of a class of another sub-fund of the fund, based on the eligibility criteria and following the procedures available through their financial intermediary.

The sub-fund is only liable for the debts, liabilities and obligations that can be charged to it.

Additional information about the fund can be found in the prospectus and the periodical reports, which may be obtained free of charge on request from Candriam or viewed at any time on the website www.candriam.com. These documents are available in one of the languages approved by the local authority of each country where the fund is authorised to market its shares or in a common language in the international finance sphere. All other practical information, in particular the latest share price, is available from the places shown above.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 4 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Be aware of the currency risk. If your reference currency is different from the product's currency, the yield of your investment will also be influenced by fluctuations, both up and down, in the exchange rate between these two currencies. In this case, the risk indicator above does not in fact take account of the fluctuations between these two currencies.

Other risk(s) materially relevant not included in the summary risk indicator: Credit. Counterparty. Derivatives. Emerging markets. Sustainability.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and/or a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 12/2024 and 12/2025.

Moderate: This type of scenario occurred for an investment between 01/2019 and 12/2022.

Favourable: This type of scenario occurred for an investment between 09/2017 and 08/2021.

Recommended holding period: Example Investment:		4 years 10 000 EUR	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6 860 EUR	6 700 EUR
	Average return each year	- 31.43%	- 9.52%
Unfavourable	What you might get back after costs	8 660 EUR	10 080 EUR
	Average return each year	- 13.40%	0.19%
Moderate	What you might get back after costs	10 450 EUR	11 860 EUR
	Average return each year	4.54%	4.36%
Favourable	What you might get back after costs	11 600 EUR	13 590 EUR
	Average return each year	16.02%	7.97%

WHAT HAPPENS IF CANDRIAM IS UNABLE TO PAY OUT?

As the Funds' assets are held with the depositary, they are not part of the assets of Candriam in case of bankruptcy and cannot be seized by the creditors of Candriam. Nevertheless, investors run the risk to suffer a financial loss in case of the default of Candriam.

In case of default of the depositary, the risk of a financial loss is mitigated to some extent as the Fund's assets are legally segregated from the assets of the depositary.

The potential financial loss associated with the default of Candriam is not covered by an investor compensation or guarantee scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	156 EUR	758 EUR
Annual cost impact (*)	1.6%	1.6% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.0% before costs and 4.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

If the fund is part of another product, such as an insurance product, the costs shown here do not include any additional costs you may incur.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge any entry fee.	0 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.34% of the value of your investment per year. This is an estimate based on actual costs over the last year.	136 EUR
Transaction costs	0.20% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	20 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	N/A

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 4 years

The selection of the recommended holding period depends on the underlying investments type as well as the level of associated risk (from high to low risk). For example, "equity" products (with a high level of risk) generally have a recommended holding period of 6 years (long-term period), "bond or money market" products (with a lower risk profile) have a shorter recommended holding period (generally between 2 and 4 years for bonds products or less than 1 year for money market products - medium-term/short-term period). "Mixed" products generally have a recommended holding period between 3 and 5 years, depending on the weight of the underlying instruments type. The recommended holding period for "Alternative-type" products is generally 3 years.

The investor may request for the redemption of its shares, at any time, under the conditions set out in the section "What are the costs?". A decision to shorten your holding period, compared to the recommended one, may increase the impact of potential fees on the performance profile.

HOW CAN I COMPLAIN?

Complaints about this product or about the conduct of the product manufacturer or the person advising on, or selling, the product:

Postal address: Candriam, SERENITY – Bloc B, 19-21, route d'Arlon – L-8009 Strassen
